

Gabriel Salazar Arguello

Software Engineer / Full Stack Developer

San José, Costa Rica | +506 83011677 | gabrielsalazar3092@gmail.com | [LinkedIn](#)

Profile

A dedicated and forward-thinking Software Engineer with over 10 years of experience in backend and frontend development. Enthusiastic about building clean, efficient, and scalable solutions, specializing in C#, Python, .NET Core, and cloud technologies. Adept at collaborating with cross-functional teams to deliver innovative cloud infrastructure projects, with a strong focus on continuous improvement and staying updated on emerging trends.

Experience

Microsoft

Software Engineer II

February 2024 - Present

- **Tech Stack & Tools:** C# 10 / .NET 6, Azure (App Services, Azure Functions, Azure DevOps), ServiceFabric, SQL/NoSQL databases
- **Key Contributions:**
 - Developing large-scale cloud infrastructure solutions with microservices architecture programming with C# language.
 - Mentoring new engineers within the team on his onboarding process and first projects. Teaching C# language features to new members.
 - Leading the design, coding with C#, and implementation of high-quality software modules for customer-facing applications.
 - Coordinating with product owners and architects to ensure solutions meet business requirements and follow best practices in .NET development (e.g., design patterns, clean code, SOLID principles).
 - Implementing CI/CD pipelines using Azure DevOps to automate testing and deployment.
 -

Software Engineer

May 2022 - February 2024

- **Tech Stack & Tools:** C# / .NET Core, RESTful APIs, Azure (App Service, Functions, Cosmos DB), Docker, Git, xUnit or MSTest for unit testing
- **Key Contributions:**
 - Developed and maintained .NET Core applications, focusing on performance optimization and scalability using C# language.
 - Collaborated with stakeholders to translate business requirements into technical specifications and implemented those features in .NET/ C#.
 - Containerized applications with Docker and deployed them to Azure Kubernetes Service (AKS).

- Employed DevOps practices for continuous integration and delivery, enabling rapid releases and ensuring high code quality.

Support Engineer

June 2020 - May 2022

- **Tech Stack & Tools:** Microsoft Exchange/Outlook technologies, PowerShell scripting, Azure Active Directory, Microsoft 365 Admin Center
- **Key Contributions:**
 - Provided technical support for messaging platforms (e.g., Exchange Online, Outlook), ensuring system performance and availability.
 - Troubleshoot complex .NET-related issues for internal tools connecting to Outlook and Exchange.
 - Automated routine administrative tasks using PowerShell scripts, improving efficiency and reducing manual workload.

Support Engineer (Outlook)

July 2017 - June 2020

- **Tech Stack & Tools:** Microsoft 365, Outlook, Exchange, PowerShell
- **Key Contributions:**
 - Assisted in resolving Outlook and Exchange configuration issues, leveraging knowledge of .NET-based Microsoft products with C# applications.
 - Collaborated with engineering teams to escalate product bugs, tracked resolutions, and communicated updates to customers.

Comunicación Corporativa - Ketchum

Information Technology Coordinator

February 2016 - June 2017

- **Tech Stack & Tools:** Windows Server, Active Directory, Microsoft SQL Server, Basic .NET Framework scripting
- **Key Contributions:**
 - Oversaw day-to-day IT operations, including server and network administration.
 - Implemented basic .NET Framework utilities to automate internal processes (e.g., data entry or reporting scripts).
 - Trained end-users on Microsoft Office and in-house applications, improving system adoption and efficiency.

Ricoh Americas Corporation

IT Support Specialist

May 2012 - February 2016

- **Tech Stack & Tools:** Windows Server Administration, Networking (Cisco routers/switches), Troubleshooting hardware/software issues.
- **Key Contributions:**
 - Provided IT support for hardware, software, and networking, including minor .NET-based/C# applications.
 - Assisted in configuring and maintaining Windows-based servers and Active Directory.
 - Collaborated with cross-functional teams to identify technology gaps and recommend solutions.

Education

- *Masters in computer engineering*, ULACIT (2021)
- *Bachelors in systems engineering*, Universidad Americana (2017)

Skills

- Programming: C#, Python, ASP.NET Core
- Cloud: Azure, Service Fabric, Kubernetes, Docker
- Databases: SQL, NoSQL
- Languages: English (Fluent), Spanish (Native)

Certifications

- CompTIA A+
- Microsoft MS900 & AZ900
- Cisco Certified Network Associate
